FACILITATOR ONLY / ALL FUTURE CARDS REVEALED

Rover Run / route A

TEAM A
14 SQUARES

Synthetic card route on the Jezero visual reference. Card slopes are simulated;
they are not measurements of these contour strips.

Square 0 (start): battery: full, slope: flat, dust: haze, ground: SAND.
Reveal only DUST / HAZE for the opening vote. Carry the start's battery state.

Opening vote / HAZE -> next category

1 BATTERY		12/50 · 24%
2 SLOPE		8/50 · 16%
3 DUST		18/50 · 36%
4 GROUND		12/50 · 24%

> **Counts come from this team's printed sheets.** They describe where the evidence is, not the probability of a storm. Each right card is an independent historical observation.

One life / two reveals / then decide

Highest count is the default reveal; the rep may override and explain why. Ties: the rep chooses. Second reveal: same cue; already-open category abstains. No votes: rep chooses.
GO into SAND or STORM = death. AVOID safe ground = death.
Recharge before moving on a dead battery. A correct avoid passes the hazard.
After crossing, reveal the full square. Its chosen source card cues the next vote.

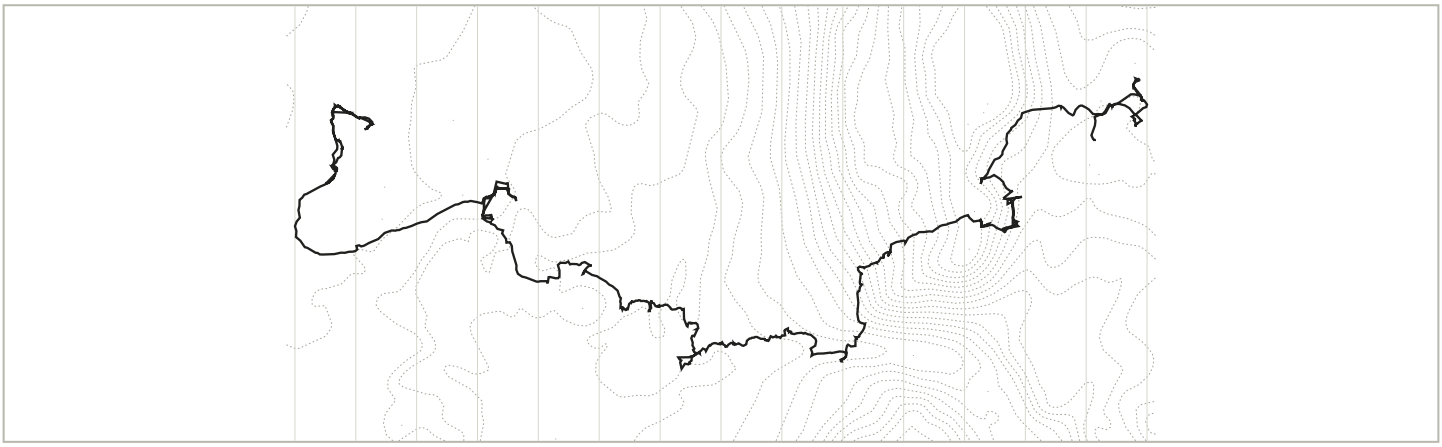

Prototype extension rules only; frozen Rover Run is unchanged.
Battery is dead immediately after SAND or STORM, not a forecast of a future hazard.

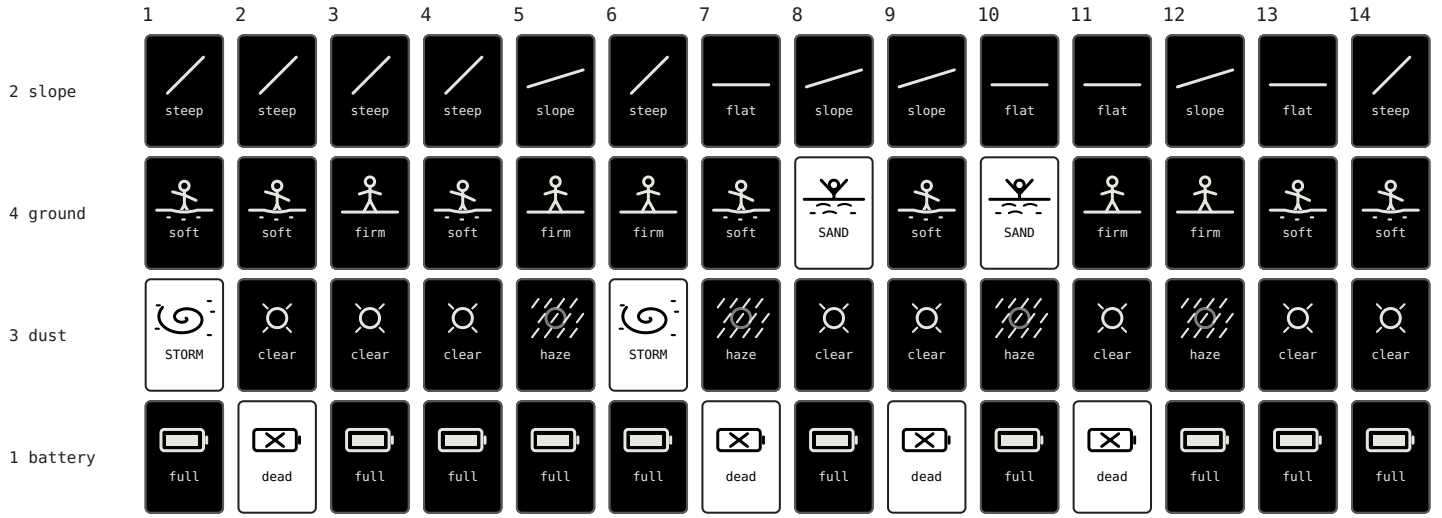

FACILITATOR ONLY / ALL FUTURE CARDS REVEALED

Rover Run / route B

TEAM B
14 SQUARES

Synthetic card route on the Jezero visual reference. Card slopes are simulated;
they are not measurements of these contour strips.

Square 0 (start): battery: dead, slope: flat, dust: haze, ground: soft.
Reveal only DUST / HAZE for the opening vote. Carry the start's battery state.

Opening vote / HAZE -> next category

1 BATTERY		12/50 · 24%
2 SLOPE		8/50 · 16%
3 DUST		18/50 · 36%
4 GROUND		12/50 · 24%

> **Counts come from this team's printed sheets.** They describe where the evidence is, not the probability of a storm. Each right card is an independent historical observation.

One life / two reveals / then decide

Highest count is the default reveal; the rep may override and explain why. Ties: the rep chooses. Second reveal: same cue; already-open category abstains. No votes: rep chooses.
GO into SAND or STORM = death. AVOID safe ground = death.
Recharge before moving on a dead battery. A correct avoid passes the hazard.
After crossing, reveal the full square. Its chosen source card cues the next vote.

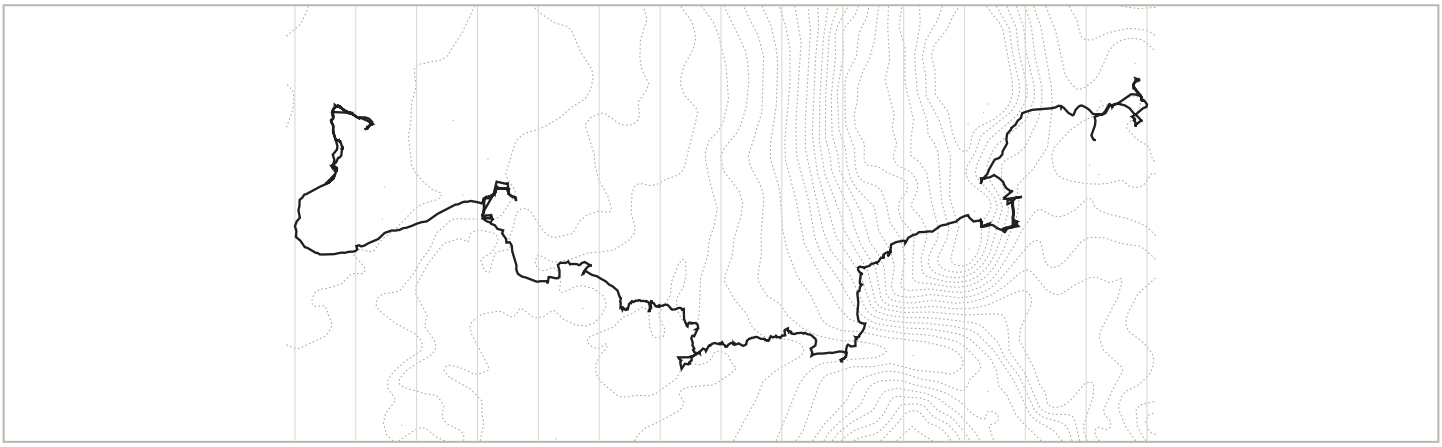

Prototype extension rules only; frozen Rover Run is unchanged.
Battery is dead immediately after SAND or STORM, not a forecast of a future hazard.

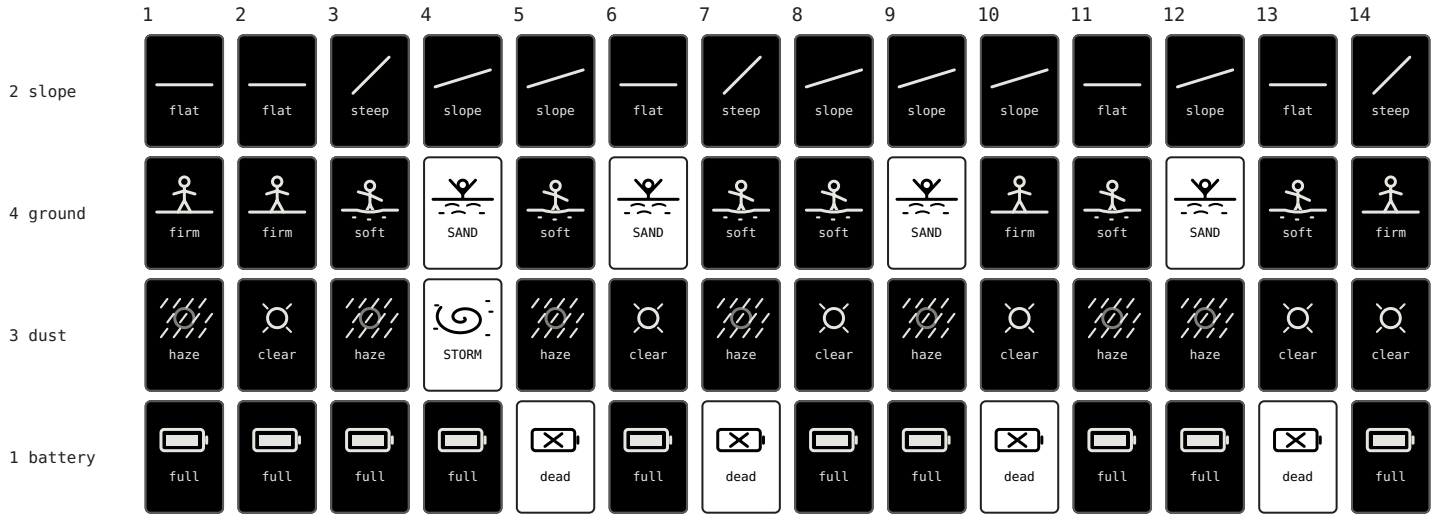

FACILITATOR ONLY / ALL FUTURE CARDS REVEALED

Rover Run / route C

TEAM C
14 SQUARES

Synthetic card route on the Jezero visual reference. Card slopes are simulated;
they are not measurements of these contour strips.

Square 0 (start): battery: full, slope: steep, dust: haze, ground: firm.
Reveal only DUST / HAZE for the opening vote. Carry the start's battery state.

Opening vote / HAZE -> next category

1	BATTERY	12/50 · 24%
2	SLOPE	8/50 · 16%
3	DUST	18/50 · 36%
4	GROUND	12/50 · 24%

> **Counts come from this team's printed sheets.** They describe where the evidence is, not the probability of a storm. Each right card is an independent historical observation.

One life / two reveals / then decide

Prototype extension rules only; frozen Rover Run is unchanged.
Battery is dead immediately after SAND or STORM, not a forecast of a future hazard.

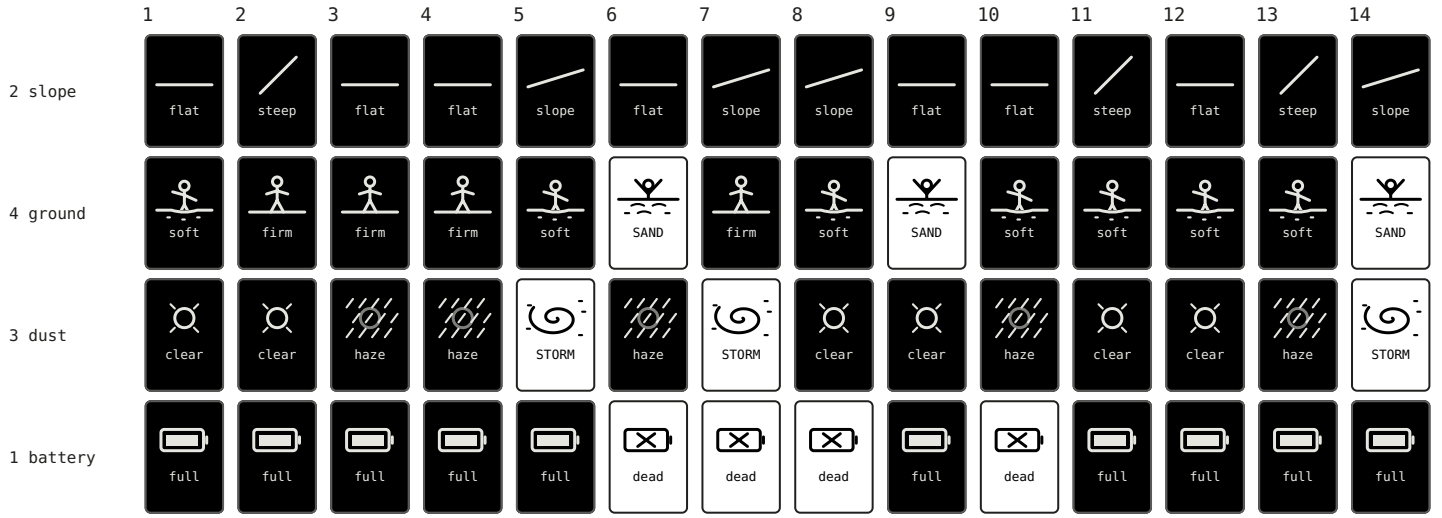

FACILITATOR ONLY / ALL FUTURE CARDS REVEALED

Rover Run / route D

TEAM D
14 SQUARES

Synthetic card route on the Jezero visual reference. Card slopes are simulated;
they are not measurements of these contour strips.

Square 0 (start): battery: full, slope: flat, dust: haze, ground: soft.
Reveal only DUST / HAZE for the opening vote. Carry the start's battery state.

Opening vote / HAZE -> next category

1 BATTERY		12/50 · 24%
2 SLOPE		8/50 · 16%
3 DUST		18/50 · 36%
4 GROUND		12/50 · 24%

> **Counts come from this team's printed sheets.** They describe where the evidence is, not the probability of a storm. Each right card is an independent historical observation.
